Conflict-Free Materials Statement

IMO Precision Controls Ltd recognises the needs for responsible sourcing of materials and we are committed to compliance with the conflict minerals law and regulations and as such IMO Precision Controls Ltd takes all reasonable precautions to ensure that our global supply chain does not contain or use such materials.

IMO Precision Controls Ltd continually checks with all suppliers of both raw materials and finished goods to ensure that materials specified under the EICC and GeSI Conflict Materials requirements are not introduced into our products or manufacturing processes and as such the below declaration is provided based upon reasonable enquiries and our current knowledge based upon the information provided.

IMO Precision Controls Ltd declares that its products are “DRC Conflict Free” for gold (Au), tantalum (Ta), tungsten (W), cobalt (Co) and tin (Sn) and confirm that these metals are not derived from or sourced from mines in conflict areas of the Democratic Republic of Congo (DRC), or illegally moved on trade routes, which are controlled by non-governmental military groups or unlawful military factions.

As conditions of use of IMO products are outside our control, IMO Precision Controls makes no warranties, express or implied, and assumes no liability in connection with any use of the above information.

Signed for and on behalf of IMO Precision Controls Ltd:

A handwritten signature in black ink, reading 'Gurnam S. Sagoo'.
